Mission Statement:

Jersey Intensity Field Hockey is committed to pushing every athlete to their maximum potential. We will provide athletes the opportunity to excel in field hockey with year-round practices and tournaments.

What type of player is Jersey Intensity looking for and what are the benefits of playing on a club team?

This elite training program is for those athletes who have the ability, desire and commitment to train at an intense level. We are looking for the player who is willing to give their time and energy to improve both as a team and individual player. JIFH is also looking for the athlete who wants to continue playing at the collegiate level. This is not a recreation program – we train athletes for the next level!! Players should be able to make the commitment to practices and tournaments. Practices are held at the brand new Monroe Sports Center. U-12/U-14/16/19 practices will be held on Sunday afternoons/early evening throughout December – early March.

The Jersey Intensity field hockey staff is made up of ALL successful former college players and National Team members. We have all been through the recruiting process, both as players and as Division I college coaches, and are here to help as you and your family go through the recruiting process.

Year round training where every athlete is working to make it to the next level is one of the biggest benefits of playing on a club team.
